If the answer to any of the items in Section 3 is yes, explain (attach additional sheets if necessary):

(Lead-Based Paint or Lead-Based Hazards) All structures were built prior to 1978. It is reasonable to assume that there is some existing lead-based paint on the property.

(Previous Other Structural Repairs) Some floor joists were replaced during renovation in 2020.

(Settling) The home was originally constructed in 1883. Although we have not investigated settling, it is a reasonable assumption that some settling has occurred over time.

(Soil Movement) The home was originally constructed in 1883. Although we have not investigated soil movement, it is a reasonable assumption that some soli movement has occurred over time.

(Subsurface Structure or Pits) At the kitchen porch, there is a "seep well."

A few yards from the main house is a "cheese cave", partially underground and approximately 20' in diameter.

We have discovered two "pits" approximately 15" diameter. These are over 100' from the main house.

(Wood Rot) The home was originally constructed in 1883. Although we are not aware of specific wood rot, it is a reasonable assumption that some wood rot exists on the property.

\*A single blockable main drain may cause a suction entrapment hazard for an individual.

Section 4. Are you (Seller) aware of any item, equipment, or system in or on the Property that is in need of repair, which has not been previously disclosed in this notice?  $\Box$  yes  $\Box$  no If yes, explain (attach additional sheets if necessary):

There are several outbuildings on the property that are over 70 years old. None of these are currently occupied, and we are not aware of specific repairs they might need, if any.
